

HELLENIC REPUBLIC  
CAPITAL MARKET COMMISSION

## ANNOUNCEMENT

Athens, 05 August 2024

The Hellenic Capital Market Commission hereby informs the investing public that it has become aware of advertisements/invitations on social media and on the internet which, using the logo of energy companies listed on the Athens Stock Exchange, invite potential investors to proceed with “*Investments in sustainable green energy*”, by purchasing, with a corresponding subscription, “*green shares*” of said companies which (with an initial minimum deposit of €250) promise guaranteed unrealistic monthly returns.

The Hellenic Capital Market Commission draws the attention of investors and urges the investing public to ignore such false posts and to be informed of activities of listed companies only through their respective web sites, their official announcements on the web site of the Athens Stock Exchange and their official communication channels on social media.
