

HCMC's Survey on fees and charges applicable to UCITS in Greece

The Hellenic Capital Market Commission (HCMC) has undertaken a research project collecting and analysing data submitted by supervised Mutual Fund Management Companies (MFMCs) related to the fees and charges applied by MFMCs on the UCITS they manage (funds that have been authorized by the HCMC) for the years 2016-2025. The analysis of said data by the Research Division was performed both at an aggregate level and per category of funds (equity, bond, money market, structured) as well as per type of charges (Entry/Exit Fees (Subscription/Redemption Fees)), Ongoing Charges, Performance Fees). The analysis of the data submitted by the MFMCs shows that in 2025, 13 MFMCs were operating in Greece, the same number as in 2024 and 2023, compared to 14 MFMCs operating during the period 2019–2022, 15 in 2018 and 2017, and 14 in 2016.

At the end of 2025, the total number of UCITS available for distribution, taking into account different classes of units stood at 344, compared to 315 at the end of 2024. Without taking into account different classes of units, the corresponding number of UCITS was 245 compared to 219 at the end of 2024.

More specifically, the following table presents the total number of UCITS for the period 2016-2025, both taking and not taking into account different unit classes, as different M/Fs. The same table presents the average fees and charges for the years 2016-2025 both for all categories of UCITS (Total M/Fs), and for individual UCITS categories (i.e. Balanced, Bond, Equity, Balanced FoFs, Bond FoFs, Equity FoFs, Money Market, and Specialist).

*Based on these data, **subscription fees for all UCITS categories** were **increased** on average in 2025 and stood at 0.38% as compared to 0.37% in 2024, 0.34% in 2023, 0.31% in 2022, 0.33% in 2021, 0.30% in 2020 and 2019, 0.31% in 2018, 0.40% in 2017 and 0.47% in 2016.*

*The **ongoing charges for all UCITS categories** were **decreased** on average in 2025 and stood at 1.71%, as compared to 1.84% in 2024, 1.82% in 2023, 1.66% in 2022, 1.63% in 2021 and 2020, 1.91% in 2019, 2.08% in 2018, 2.36% in 2017 and 2.28% in 2016.*

*In parallel the **redemption fees for all UCITS categories** were **increased** on average in 2025 and stood at 0.54%, as compared to 0.45 % in 2024, 0.32% in 2023, 0.28% in 2022, 0.23% in 2021, 0.24% in 2020, 0.25% in 2019, 0.24% in 2018, 0.31% in 2017 and 0.36% in 2016.*

***Performance fees for all UCITS categories** were **increased** on average in 2025 and stood at 0.20%, as compared to 0.07% in 2024, 0.10% in 2023, 0.28% in 2022, 0.43% in 2021, 0.25% in 2020, 0.29% in 2019, 0.15% in 2018, 0.10% in 2017 and 0.03% in 2016.*

It is noted that the fees and charges are divided into the following categories and are understood as follows:

A. One-off fees before or after investment

- 1. Subscription Fee = the cost of participating in the mutual fund*
- 2. Redemption Fee = the cost of exiting the mutual fund*

B. Fees and Charges paid by the fund's assets during a year:

- 1. **On-going charges:** calculated based on the financial year results and may vary from year to year. They include, among others, management fees, custodian fees and fees of legal and other advisers, tax charges and other expenses incurred on behalf of the fund. They do not include the performance fee and the cost of transactions on the fund's portfolio assets, except for the subscription and redemption fees paid by the fund when acquiring or redeeming units of another collective investment undertaking.*
- 2. **Performance fee:** calculated on the difference between the performance of the fund and the performance of the benchmark, used by the management company, which is selected based on the investment policy and strategy of the fund and reflects the risk-return profile of the fund.*

July 2026

ⁱ Within on-going charges there are tax charges, as defined by the provisions of article 103 of Law 4099/2012, as replaced by article 56 of law 4646/2019. In particular, it is provided that:

"3. The management company, in the name and on behalf of the mutual fund or the societe anonyme for investments in open-end funds (AEEMK), or as the case may be, the AEEMK referred to in article 40, is obliged to pay a tax, which is calculated daily on the six-monthly average of the net assets of the UCITS, or any individual investment segments. By paying the tax, the tax liability of the UCITS and its unit holders or shareholders is exhausted.

The tax rate is set at ten percent (10%) on the current rate of main refinancing operations of the Euro-system of the European Central Bank (hereinafter Reference Rate), increased as follows, depending on the category of each UCITS or any of its individual investment segments based on the relevant decision of the Board of Directors of the Hellenic Capital Market Commission:

a) for money market UCITS without a surcharge,

b) for bond UCITS, by 0.25,

c) for balanced UCITS, by 0.5,

d) for equity UCITS and for every other category of UCITS except for the cases mentioned above, by 1.

The tax is paid to the competent department of the Tax Administration with a declaration submitted within the first fortnight of the months of July and January of the following semester from its calculation. In the event of a change in the reference interest rate or the classification of the UCITS, the resulting new basis for calculating the tax is valid from the first day of the month following the change."
