

HELLENIC REPUBLIC
CAPITAL MARKET COMMISSION

PRESS RELEASE

Athens, 29 October, 2021

Following today's press reports, it is noted that the Hellenic Capital Market Commission exercises its powers always thoroughly and with integrity, in accordance with the applicable legislation. HCMC examines all complaints coming under the rules of capital market legislation with objectivity and thoroughness implied by its institutional role, within the time limits set by Law, and with the relevant decisions adopted by its internal decision-making bodies. However, it is obvious and should be clear to everyone that the Hellenic Capital Market Commission is an independent supervisory authority and may not get involved in business disputes or even more being manipulated when exercising its powers.
